We are ROOTING *for NATURE*

Nature is the place we call Home. As such, it should reach everyone, anywhere in the world, indiscriminately. No room is too small and no building is too big for Nature not to exist. It is immense, owns itself, and we can only contribute for it to flourish in the most unlikely places by helping it to grow wider, stronger, better and closer.

At Artevasi, our mission is to *support Nature* and give it *new roots to thrive anywhere*, providing the tools people need to plant and spread a greener world.

[PT]

A Natureza é o lugar a que chamamos Lar. Como tal, deve chegar a toda a gente, em qualquer parte do mundo, indiscriminadamente. Nenhum espaço é demasiado pequeno e nenhum edifício é demasiado grande para que a Natureza não exista. Ela é imensa, dona de si própria, e nós só podemos contribuir para que ela floresça nos lugares mais improváveis, ajudando-a a crescer melhor, mais forte e mais próxima de todos. Na Artevasi, a nossa missão passa por apoiar a Natureza e dar-lhe novas raízes para prosperar em qualquer lugar, fornecendo as ferramentas necessárias para as pessoas plantarem e espalharem um mundo mais verde.

[ES]

La naturaleza es el lugar al que llamamos «hogar». Como tal, debe llegar a todos, en cualquier parte del mundo, indiscriminadamente. Ningún espacio es demasiado pequeño ni ningún edificio es demasiado grande para que la naturaleza no exista. Es enorme, dueña de sí misma, y solo podemos contribuir a que florezca en los lugares más insospechados, ayudándola a crecer mejor, más fuerte y más cerca de todos. En Artevasi, nuestra misión es apoyar a la naturaleza y darle nuevas raíces para que prospere en cualquier lugar, proporcionando las herramientas necesarias para que la gente pueda plantar y difundir un mundo más verde.

[FR]

La nature est l'endroit que nous appelons notre maison. C'est pourquoi elle devrait être présente chez tout le monde, partout dans le monde, sans discrimination. Aucun espace n'est trop petit et aucun bâtiment n'est trop grand pour que la nature n'existe pas. Elle est immense, elle est maître d'elle-même et nous ne pouvons que l'aider à s'épanouir dans les endroits les plus improbables, en l'a aidant à devenir meilleure, plus forte et plus proche de chacun. Chez Artevasi, notre mission est d'apporter notre soutien à la nature et de lui donner de nouvelles racines pour prospérer partout en fournissant les outils nécessaires pour planter et divulguer l'idée d'un monde plus vert.

[DE]

Die Natur ist der Ort, den wir unser Zuhause nennen. Deshalb sollte sie alle Menschen gleichermaßen auf der ganzen Welt erreichen. Kein Raum und kein Gebäude ist zu klein oder zu groß für die Existenz von Natur. Sie ist riesig, sie gehört sich selbst, und wir können ihr nur helfen, an den unwahrscheinlichsten Orten zu gedeihen, sie besser und stärker zu machen und allen Menschen näher zu kommen. Wir von Artevasi haben es uns zur Aufgabe gemacht, die Natur zu unterstützen und ihr neue Wurzeln zu schenken. Dazu stellen wir den Menschen die notwendigen Utensilien zur Verfügung, um eine grünere Welt zu pflanzen und zu verbreiten, damit die Natur überall gedeihen kann.

Our green milestones.

Im Jahr 2022 begannen wir unser Abenteuer in der Terrakotta-Produktion mit der Einweihung unserer Fabrik in Boialvo, einer kleinen Stadt im Distrikt Aveiro. Hier erwecken wir die neueste Kollektion von Artevasi zum Leben: traditionelle Terrakotta.

70.000m² facilities

~10.000 pots produced per day

20.000 pallets storage capacity

130 meters kiln

Reinventing tradition

The green path taken by Artevasi has become even greener with the terracotta collection, ensuring the use of pots made from resistant, natural and eco-friendly material. The construction of the factory led us to rethink more sustainable production methods, which we strive to improve on a daily basis.

Almost 50% of the electricity consumed comes from renewable sources

We recover heat from the kiln to power the pre-furnace and dryers.

We use rainwater to supply the production chain.

[PT]

O caminho verde percorrido pela Artevasi tornou-se ainda mais verde com a coleção de terracota, que garante a utilização de vasos feitos de material resistente, natural e amigo do ambiente. A construção da fábrica levou-nos a repensar e a adotar métodos de produção mais sustentáveis, que procuramos melhorar diariamente. Como tal, quase 50% da energia elétrica consumida provém de fontes renováveis. Ao mesmo tempo, recuperamos o calor do forno para alimentar o pré-forno e os secadores, numa lógica de otimização de energia. Por último, no que concerne à poupança de água, utilizamos a água da chuva para abastecer a nossa cadeia de produção.

[ES]

El camino ecológico recorrido por Artevasi se ha vuelto aún más verde con la colección de terracota, que garantiza el uso de macetas fabricadas con un material resistente, natural y respetuoso con el medioambiente. La construcción de la fábrica nos llevó a replantearnos y a adoptar métodos de producción más sostenibles, que intentamos mejorar cada día. Por lo tanto, casi el 50% de la electricidad consumida procede de fuentes renovables. Al mismo tiempo, recuperamos el calor del horno para alimentar el prehorno y los secadores, en una lógica de optimización energética. Por último, en cuanto al ahorro de agua, utilizamos agua de lluvia para abastecer nuestra cadena de producción.

[FR]

Le chemin vert parcouru par Artevasi est devenu encore plus vert avec la collection en terre cuite, qui garantit l'utilisation de vases fabriqués à partir de matériaux résistants, naturels et respectueux de l'environnement. La construction de l'usine nous a amenés à repenser et à adopter des méthodes de production plus durables, que nous nous efforçons d'améliorer au quotidien. Ainsi, près de 50% de l'électricité consommée provient de sources renouvelables. Parallèlement, nous récupérons la chaleur du four pour alimenter le pré-four et les séchoirs, dans une logique d'optimisation énergétique. Enfin, en matière d'économie d'eau, nous utilisons l'eau de pluie pour alimenter notre chaîne de production.

[DE]

Der grüne Weg, den Artevasi eingeschlagen hat, ist mit der Terrakotta-Kollektion noch grüner geworden, da diese die Verwendung von Töpfen aus widerstandsfähigem, natürlichem und umweltfreundlichem Material garantiert. Der Bau der Fabrik veranlasste uns dazu, unsere Produktionsmethoden zu überdenken und nachhaltiger zu gestalten. Täglich setzen wir uns das Ziel, diesen Prozess weiter zu verbessern. So stammen fast 50% des verbrauchten Stroms aus erneuerbaren Quellen. Gleichzeitig wird die Wärme aus dem Ofen zurückgewonnen, um den Vorofen und die Trockner mit Energie zu versorgen, was einer Logik der Energieoptimierung entspricht. Was schließlich das Wassersparen betrifft, so nutzen wir Regenwasser für die Versorgung unserer Produktionskette.

Amália

Inspired by the voice of Portugal and Fado, Amália Rodrigues, this range is a hymn to the *classic and traditional* format, standing out for its adaptability, whether in more modern or traditional environments. With new options of pots and bowls in the *Campana* lines and new plant boxes and pots for orchids, the Amália range is suitable for indoor use (with a saucer) or outdoor use, enjoying various sizes with a palette of three colours in earth tones. Produced entirely in Portugal from our terracotta factory, this versatile range translates into breathable, environmentally friendly pots with drainage holes.

[PT]

Inspirada na voz de Portugal e do Fado, Amália Rodrigues, esta gama é um hino ao formato clássico e tradicional, destacando-se pela adaptabilidade, quer em ambientes mais modernos ou tradicionais. Com novas opções de vasos e taças nas linhas Campana, assim como novas floreiras e vasos para orquídeas, a gama Amália é indicada para uso indoor (com prato) ou outdoor, usufruindo de diversos tamanhos com uma paleta de três cores em tons terra. Produzida integralmente em Portugal, a partir da nossa fábrica de terracota, esta gama versátil traduz-se em vasos respiráveis, amigos do ambiente e com orifício para drenagem.

Avec de nouvelles solutions de pots et de coupes dans les lignes Campana et de nouvelles jardinières et pots pour orchidées, la gamme Amália peut être utilisée à l'intérieur (avec une soucoupe) ou à l'extérieur, avec différentes tailles et une palette de trois couleurs dans les tons de terre. Entièrement produite au Portugal dans notre usine de terre cuite, cette gamme polyvalente se traduit par des pots respirants, respectueux de l'environnement et dotés de trous de drainage.

[DE]

Inspiriert von der Stimme Portugals und des Fado, Amália Rodrigues, ist diese Serie eine Hymne an das klassische und traditionelle Format und zeichnet sich durch ihre Anpassungsfähigkeit aus, sei es in modernen oder traditionellen Umgebungen. Mit den neuen Optionen von Gefäßen und Schalen der Campana-Linien sowie den neuen Blumenkästen und Töpfen für Orchideen eignet sich die Serie Amália sowohl für den Innenbereich (mit Untersteller) als auch für den Außenbereich und bietet verschiedene Größen und eine Palette von drei Farben in Erdtönen. Diese vielseitige Serie wird vollständig in Portugal in unserer Terrakotta-Fabrik hergestellt und besteht aus atmungsaktiven, umweltfreundlichen Töpfen mit Abflusslöchern.

Saramago

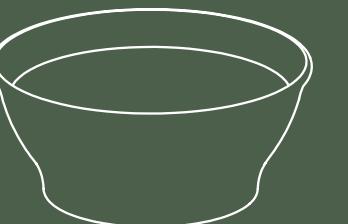

The writer awarded the Nobel Prize for Literature in 1998, José Saramago, lends his genius to this *simple, pure, straight-lined* range which, combined with its rounded edge, gives rise to genuinely timeless products. Produced entirely in Portugal from our terracotta factory, the Saramago range features versions in pot, cylinder pot and bowl, with a palette of three earth tone colours and various sizes. Suitable for indoor (with a saucer) or outdoor use, this is a frost proof, versatile and environmentally friendly solution with a drainage hole.

Manuel

The Manuel pot was developed as a family tribute, translating into timeless features, combining the *classic aspect* of its material with the *contemporaneity of its design*. Now with two new larger sizes, this range translates into breathable pots with drainage holes and a palette of three colours in earth tones. Produced with natural resources, the Manuel pot is suitable for indoor (with a saucer) or outdoor use, frost proof and translates into a unique, quality product, with production entirely made in Portugal from our terracotta factory.

O vaso Manuel foi desenvolvido como uma homenagem familiar, traduzindo-se em traços intemporais, aliando a vertente clássica do seu material à contemporaneidade do seu design. Agora com dois novos tamanhos maiores, esta é uma gama que se traduz em vasos respiráveis, com orifício para drenagem e uma paleta de três cores em tons terra. Produzido com recursos naturais, o vaso Manuel é adequado para uso indoor (com prato) ou outdoor, resistente ao gelo e traduz-se num produto único e de qualidade, com produção integralmente feita em Portugal, a partir da nossa fábrica de terracota.

La maceta Manuel se desarrolló como un homenaje familiar, traduciéndose en características atemporales, combinando el aspecto clásico de su material con la contemporaneidad de su diseño. Ahora, con dos nuevos tamaños más grandes, esta gama se traduce en macetas respirables con orificios de drenaje y una paleta de tres colores en tonos tierra. Producida con recursos naturales, la maceta Manuel es apta para interior (con plato) o exterior, resistente a las heladas y se traduce en un producto único y de calidad, con producción enteramente realizada en Portugal, en nuestra fábrica de terracota.

Le pot Manuel a été développé en hommage à la famille, se traduisant par des caractéristiques intemporelles, combinant l'aspect classique de son matériau avec la contemporanéité de son design. Avec deux nouvelles plus grandes tailles, cette gamme se traduit par des pots respirants dotés de trous de drainage et d'une palette de trois couleurs dans les tons de terre. Produit à partir de ressources naturelles, le pot Manuel peut être utilisé à l'intérieur (avec une soucoupe) ou à l'extérieur, il résiste au gel et se traduit par un produit unique et qualitatif, dont la production est entièrement réalisée au Portugal dans notre usine de terre cuite.

Die Serie Manuel wurde als Hommage an die Familie entwickelt. Sie ist zeitlos und verbindet den klassischen Aspekt ihres Materials mit der Modernität ihres Designs. Jetzt mit zwei neuen, größeren Größen, ist dies eine Serie, die sich in atmungsaktive Gefäße mit Abflussloch und eine Palette von drei Farben in Erdtönen übersetzt. Der aus natürlichen Rohstoffen hergestellte Topf Manuel ist sowohl für den Innen- (mit Untersetzer) als auch für den Außenbereich geeignet, frostbeständig und ein einzigartiges Qualitätsprodukt, das vollständig in Portugal in unserer Terrakotta-Fabrik hergestellt wird.

Saucers

We developed our round and rectangular saucers as an ideal complement to our terracotta pots and plant box collection, offering *versatility and functionality* to any decorative context. Due to their waterproof finish, our saucers make it possible to use our entire collection indoors.

ROUND SAUCER

RECTANGULAR SAUCER

[PT]

Desenvolvemos os nossos pratos redondos e retangulares como complemento ideal da nossa coleção de vasos e floreiras de terracota, oferecendo versatilidade e funcionalidade a qualquer contexto decorativo. Devido ao seu acabamento à prova de água, os nossos pratos possibilitam o uso de toda a nossa coleção em ambiente indoor.

[ES]

Hemos desarrollado nuestros platos redondos y rectangulares como complemento ideal de nuestra colección de macetas y jardinerías de terracota, ofreciendo versatilidad y funcionalidad a cualquier contexto decorativo. Gracias a su acabado impermeable, nuestros platos permiten utilizar toda nuestra colección en interiores.

[FR]

Nous avons développé nos soucoupes rondes et rectangulaires comme complément idéal à notre collection de pots et de jardinières en terre cuite, offrant polyvalence et fonctionnalité à tout contexte décoratif. Grâce à leur finition imperméable, nos soucoupes permettent d'utiliser l'ensemble de notre collection à l'intérieur.

[DE]

Wir haben unsere runden und rechteckigen Untersetzer als ideale Ergänzung zu unserer Kollektion von Terrakotta-Pflanzgefäß und -Blumenkästen entwickelt. Sie bieten Vielseitigkeit und Funktionalität für jeden dekorativen Kontext. Dank ihrer wasserfesten Beschaffenheit können unsere Untersetzer auch im Innenbereich verwendet werden.
